PRAISE NYABUNZE

GRADUATE TRAINEE | IT & ELECTRONIC SECURITY SUPPORT ENGINEER

PROFESSIONAL SUMMARY

Informatics graduate with hands-on exposure in cloud computing, systems support, networking, and cybersecurity. Skilled in supporting Windows environments, cloud-based systems, technical operations and network related issues, with a strong interest in IT infrastructure and electronic security systems including IP CCTV and access control technologies. Demonstrates the ability to adapt quickly, learn new technologies and provide effective technical support in fast-paced environments.

EDUCATION

NATIONAL UNIVERSITY OF SCIENCE AND TECHNOLOGY

BSc. Hon Degree in Informatics (grade 2.1)

CERTIFICATIONS

Women Techsters Bootcamp Cybersecurity (2026)

AWS Cloud Practitioner Certification (2024)

WORK EXPERIENCE

Standard Telephones and Cables (STC) | OCT 2023 –AUG 2024

Cloud Engineer Intern

- Optimized Cloud Infrastructure to improve system performance, cost efficiency, availability and security
 - Deployed and managed EC2 instances on AWS, supporting scalable and reliable system operations
 - Worked on Networking Infrastructure, supporting system connectivity and interoperability
 - Supported users with troubleshooting and technical guidance across cloud and on premise systems
 - Deployed 3CX to the AWS Cloud by launching instances from AWS Market place
 - Collaborated with teams to resolve system issues and ensure application uptime
 - Provided first-line technical support for hardware and software issues, ensuring minimal downtime
 - Assisted in systems setup, configuration and maintenance for cloud based environments
 - Documented IT issues and resolutions and systems procedures to support operational continuity
 - Applied Python scripting for basic automation and system related tasks
-

SKILLS

Python Programming • SQL and Java Script • Networking • AWS • Real time data processing • DevOps & Deployment • Data visualization • Back-up and Recovery processes • Knowledge in Operating Systems • Team work and Collaboration • Strong analytical and problem-solving skills • Clear technical documentation and Communication
